

High Temperature
Dyeing Tester

NEW

Technical Specifications

- Reinventing tank systems to improve dyeing performance
- Customizable Painting up to 15 steps
- Controlling the temperature inside the tank
- Usability up to 12 150cc tank
- Characteristics of the dyeing chart
- Dyeing ability up to 130 degrees
- The ability to save the dyeing chart
- Hot heating feature
- Has a cooling system
- It has a temperature control system
- Touch screen
- Controller time

Advantages

The use of hot air for dyeing operations, while keeping the process clean, reduces the cooling time. Using the direct measurement of the inside temperature of the tank, the similarity of the sample color with the original dyeing is unique. Drawing the graphic diagram of the temperature over time during the dyeing operation doubles the dyeing process.
